## Introduction

This *Directions for Administration* (DFA) manual for the Ohio Achievement Tests contains general information about the Ohio Achievement Test program and specific information about administering the Grades 5, 6, 7, and 8 Spring 2009 Ohio Achievement Tests.

Before administering these tests, Test Administrators (TAs) are encouraged to review the information in this manual to familiarize themselves with the test administration procedures. This information is essential to the successful administration of the Ohio Achievement Tests. Please read this manual carefully before administering the tests.

## General Information for Test Administrators

This section of the manual provides the general information that is necessary to effectively administer the Grades 5, 6, 7, and 8 Spring 2009 Ohio Achievement Tests.

There are several security protocols, packaging procedures, and operational practices that TAs should be aware of for the Spring 2009 Ohio Achievement Test administration.

Test booklets will **not** be sealed. The security seals have been eliminated from all individual student test booklets. Please maintain test security.

There is a **new form (Form SV)** for use with all special versions (Read Aloud, English Audio CD, Braille, Large-Print, Bilingual, Foreign-Language Audio CD, and Oral Translation). This is a change from last year when special versions were used with Form A. All read-aloud administrations should be conducted using Form SV. Please note there will still be Form A that will be distributed to the general education students. Form A **must not** be distributed to the students who use special versions. In addition, the full supplemental instructions for all special versions and accommodations have been added to the District Test Coordinator (DTC) and School Test Coordinator (STC) manuals and will not be included with the individual special version test materials. Also, all English Audio CDs and Foreign-Language CDs will now be individually sealed.

Test booklets will now be **spiraled** within shrink-wrapped packages. Multiple forms of test booklets will be assigned to each test building.

There will be field-test questions. Each test booklet will contain identical “operational” test items used for assigning scores to students. Each test form, however, will have **different** embedded sets of field-test questions that will be used for future item development purposes (field-test items **are not used** in assigning scores to students).

Within a classroom, there may be three to seven different forms of a test booklet for distribution. Tests should not be taken from spiraled packets to use with special versions; Form A will be contained in some spiraled packets and **must not** be used for special versions. In test administration settings where accommodations are provided (for example, administering a read-aloud or an English audio CD), **Form SV** should be utilized for all tested students who use special versions and for the Test Administrator if needed.

The Spring 2009 OAT demographic information will now be collected on the back cover and inside back cover of the answer document. The back cover contains individual student information, such as Pre-ID label, name, gender, date of birth, ethnicity, testing group number, district IRN, and school IRN. The inside back cover contains the student number, SSID, LEP/IEP Status, accommodations, special versions, migrant status, and accelerated testing tag.

Also, answer documents contain a new box (Box “G”; see below) labeled “Testing Group Number” on the back cover. The purpose of assigning a Testing Group Number to a **testing location** is to aid in identifying a cohort of students quickly and easily should an anomaly occur during testing, such as defective materials being discovered after the test was administered.

Testing Group Number											
Reading			Math			Science			Social Studies		
1	0	7	1	0	7	5	2	7	7	4	6
0	0	0	0	0	0	0	0	0	0	0	0
1	1	1	1	1	1	1	1	1	1	1	1
2	2	2	2	2	2	2	2	2	2	2	2
3	3	3	3	3	3	3	3	3	3	3	3
4	4	4	4	4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5	5	5	5	5
6	6	6	6	6	6	6	6	6	6	6	6
7	7	7	7	7	7	7	7	7	7	7	7
8	8	8	8	8	8	8	8	8	8	8	8
9	9	9	9	9	9	9	9	9	9	9	9

A **testing group** is defined as any location within the school where an OAT test administration (of any size) is being conducted. The district must designate a person or persons to assign testing group numbers to all testing locations within each school.

Use of Testing Group Numbers is required. **If answer documents are returned for scoring without Box “G” completed, the DTC or STC may be contacted to provide the information.**

Because tests will be **spiraled**, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document. It is recommended that staff, not students, bubble the information on the demographic pages.

## Security Concerns and Procedures

**Maintaining test security is one of the most important responsibilities of a TA.** At all times, the district’s and the state’s written procedures for protecting secure test materials should be followed. At grades 5, 6, 7, and 8, these secure test materials consist of all test booklets (which contain test questions), answer documents, student information, and student responses. Secure test materials also include special versions of the test (Braille, Large-Print, Bilingual, Oral Translations, Foreign-Language CDs, and English Audio CDs). It is illegal and unethical to reproduce or disclose any of this material or cause it to be reproduced or disclosed in any format. Test security is vital to the successful administration of the tests. The TA is responsible for ensuring the security of not only the physical test booklets but also the individual test questions and materials. The responsibility to maintain the security of the test questions and materials continues even after the test booklets have been returned to the STC.

Under Ohio law, releasing any test questions or other contents of a test to students or helping students cheat in any other way may result in invalidation of test scores, termination of employment, suspension of certificates to teach, and/or prosecution. Violations of test security provisions in the district’s written procedures may be punishable by penalties specified by the district. If TAs have questions or concerns about their responsibilities for test security, they should consult the STC.

All electronic devices (cell phone, iPod, etc.) must be collected from students prior to the test administration. Students **must** be told that electronic devices are prohibited during the test administration. Use of an electronic device during a test administration is a security violation.

Test booklets are sent to schools in shrink-wrapped spiraled packages. **Shrink-wrapped spiraled packages should not be opened until the day of test administration.**

Security seals have been eliminated from all individual student test booklets. Please maintain test security.

Before and after a test administration, both scorable and nonscorable test materials must be kept in a secure location designated by the STC. Unless directed otherwise by the STC, the TA is responsible for returning secure test materials to the storage area after each day's administration. Only those individuals authorized by district policy should have access to these materials. **Under no circumstances should students have access to test materials before or after the test session.**

During each test administration, a TA must be in the room at all times. If students are allowed to leave the room while testing is in progress, they must first turn in their test materials. The TA must account for all test materials before dismissing students.

The TA must be an employee of the district and hold a license/certificate issued by the Ohio Department of Education (ODE). For any group of more than 30 students, a monitor must assist the TA. The ratio of TAs/monitors to students is one TA/monitor to 30 students in any testing room. A TA must be in each testing room, including rooms where CDs are being used.

When test administration is complete and the TA has accounted for all materials, the TA must return them immediately to the STC.

The following are **security violations** (this is not an exhaustive list).

Before an administration:

- Reviewing the test before the administration and creating a study guide or in some way releasing the test questions to the students;
- Describing the test questions in a letter, discussing the test questions or photocopying the test questions prior to the public release of the test questions when they are posted on the ODE Web site;
- Standing by the student's desk and indicating in some manner that the student's answer is incorrect, blank or deficient in some manner;
- Reviewing different test booklets or discussing the forms of the test to compare field-test questions.

After an administration:

- Discussing test questions with colleagues or students after the test has been administered but before the test is released to the public, which may affect students who were absent or allow students to change answers on a test in the same booklet;
- Describing the test questions in a letter, discussing the test questions or photocopying the test questions prior to the public release of the test questions when they are posted on the ODE Web site;
- Altering a student's response after the student has turned in the test booklet and answer document.

At any point, if it is believed that a violation of test security has occurred, contact the STC regarding alleged test security violations. Then, follow the procedures established by the school district for handling alleged test security violations.

## Standards for the Ethical Use of Tests

The State Board of Education has adopted Standards for the Ethical Use of Tests to assist anyone involved in test administration with performing his or her responsibilities with "honesty, integrity, due care, and fairness to all and to ensure the integrity of the assessment process and the reliability and validity of inferences made from the assessment results."

The standards govern testing related to, but not limited to, standardized achievement testing, state proficiency testing and any other grade-level or age-level assessments administered schoolwide or districtwide.

The standards are grouped according to various stages in the assessment process: (1) standards associated with communicating the ethical standards to and monitoring the educational practices of staff members who are assigned assessment responsibilities; (2) ethical standards associated with practices in preparing students for an assessment; (3) ethical standards associated with administering and scoring assessments; and (4) ethical standards associated with interpreting and using assessment results.

Although the Standards for the Ethical Use of Tests provides examples of unethical practices at each stage of the assessment process, these examples are not an exhaustive list of all possible unethical practices. Good professional judgment should be used if a situation arises that is not addressed by the Standards for the Ethical Use of Tests. The Standards for the Ethical Use of Tests can be found in Appendix A and on the Internet; log on to <http://education.ohio.gov/>, keywords "Ohio Administrative Code."

## Basic Guidelines for Test Administration

### Test Schedule and Time Allotments

The Spring 2009 administration of the Ohio Achievement Tests, including make-up testing, will take place from **April 20 through May 8**. However, the testing window is not open for a three-week period. All reading tests **must** begin on either Monday, April 20; Tuesday, April 21; or Monday, April 27. Any make-up test must be administered within nine **calendar** days of the original testing day for each test. The STC will establish the testing schedule for each school.

To ensure that all students have sufficient time to complete the test, the time allotment for each achievement test is 2½ hours excluding breaks (LEP and IEP/504-identified students may have extended time while taking the assessment; however, the test must be completed in a single day).

Students identified as Limited English Proficient (LEP) may have extended time and/or the use of a dictionary while taking the assessment.

A situation may arise in which it is necessary to move some students to another testing location. For example, the majority of students finish the test early, but a few students require the full amount of time and may need to move to another room to complete the test. If students move to another location within the school, the TA must collect all their test materials and redistribute them at the new location. Students must not carry tests. Test security must be maintained throughout the transition. The transition time is **not** included in the allotted time noted above.

### Testing Room Preparation

Arrive at the testing room early to make sure that it is ready for the testing session. Be sure there is an area in the room where test materials not in use can be stored securely and away from students.

Check the testing room for possible test question "clues" before each testing session. Charts, maps and other materials in the classroom that could assist students with test items should be covered or removed before the test administration. The Ohio Academic Content Standards can serve as a resource to determine what materials should be removed.

Give each student a work space that is large enough to accommodate an open test booklet and answer document. Work spaces should be cleared of all other materials. During testing, students should be separated by a reasonable distance to encourage independent work and to prevent collaboration.

Plan to provide two No. 2 pencils with erasers for each student and to have extra pencils on hand. **Students must not use pens, colored pencils or markers to complete their responses.** Responses completed with an ink pen, colored pencil, or marker will **not** be scored. Students may do their silent work after their test materials have been collected. It is advisable to have some generic silent work on hand for students who forget to bring their own.

## Protractors (Grade 5 Only)

Students need access to a protractor when taking the Grade 5 Mathematics Achievement Test. Students may be asked to find the measure of angles or to draw an angle of a specified “size” — one that has a measure of a specified number of degrees. Students should be familiar with and use this protractor during instruction.

Most protractors commonly purchased for use in a classroom are acceptable, including semicircular protractors, circular protractors and angle rulers.

Some plastic templates supplied by textbook series may include a protractor. Students may use a template while taking the Grade 5 Mathematics Achievement Test when the template contains no information or tools that could provide answers to other questions on the test. For example, a template that identifies geometric figures by shape and name, shows fractional parts of a circle or includes fraction and decimal equivalents **cannot** be used during testing.

## Calculators (Grades 6, 7 and 8 Only)

Students may use calculators on the Grades 6, 7 and 8 Mathematics Achievement Tests. Schools must ensure that each student uses only the appropriate type of calculator specified below when taking the Grades 6, 7 and 8 Mathematics Achievement Tests. Students may not use operating manuals, instruction or formula cards or other information concerning the operation of calculators.

- Students are permitted to use four-function and scientific calculators that meet the criteria described below.
- Students may use personal calculators or calculators provided by the school and/or district. The State will not provide calculators for student use.
- Test items are designed to be calculator neutral; that is, all items can be completed without using a calculator.

### Criteria for Calculators

Certain restrictions are placed on the capabilities and types of calculators that may be used by students on the Grades 6, 7 and 8 Mathematics Achievement Tests. For example, students may not use graphing calculators and calculators with certain word-processing capabilities.

### Allowable Calculators/Functions

Allowable calculators include most four-function and scientific calculators, including those with fraction capabilities.

### Prohibited Calculators/Functions

Students may NOT use calculators or calculating tools with any of the following capabilities:

- Graphing calculators
- Calculators with equation-solving functions
- Calculators with geometric capabilities
- Calculators with QWERTY keyboards and word-processing capabilities
- Calculators with wireless or transmitting capabilities
- Large programmable calculators (100 steps or more)
- Laptop and hand-held computers
- PDAs (e.g., personal planners and electronic organizers)
- Electronic reference tools (e.g., spell checker, dictionary and/or thesaurus)
- Calculators with tape or paper outputs
- Cell phones

The calculator policy for the Grades 6, 7 and 8 Mathematics Achievement Tests is not intended to limit the types of calculators used within mathematics classrooms. Decisions requiring acquisition and use of more advanced technologies (e.g., graphing calculators and Calculator-Based Laboratories (CBLs)) at these grades should not be based solely on the calculator policy for these tests. The use of more advanced technologies is included in the academic content standards and should be part of the instructional program. A policy on the use of protractors and calculators is available online. Go to <http://education.ohio.gov/>, keyword “protractor policy.”

### For clarifications or questions, contact:

Office of Curriculum and Instruction — Mathematics  
(614) 466-1317

## Oral Script Use

To ensure standardized administration conditions throughout Ohio, this manual contains directions that need to be read to the students. These directions contain information that students need to know about the test. Please do not deviate from the oral script.

Read the appropriate script to the students, paying careful attention to the instructions to the Test Administrator that are inserted among the oral directions to students. All information to be read aloud to students is printed in **bold** type. Instructions to the Test Administrator are printed in nonbold type.

## Procedures During Test Administration

### Marking Instructions

Students should be encouraged to complete all written exercises and questions and not leave anything blank. It is to their benefit to answer all questions and complete all written exercises. However, once the student has turned in the test booklet and answer document, the TA should not review the answer document for missing answers or read the student responses. The TA must not return the test booklet and answer document to the student. This may result in a security violation.

Remind students that they must complete their responses with a No. 2 pencil only.

Please review the following points with students on how to properly fill in the bubbles in their answer documents.

- Fill in each bubble completely.
- Erase completely any marks that the student wishes to change.
- Avoid marking too close to multiple-choice bubbles. Stray marks may cause the scanner to record a response not intended.
- Use a No. 2 pencil to write all responses.
- Do not use mechanical pencils.
- Do not use an ink or ballpoint pen, colored pencil, or markers to write a response. Using a pen, colored pencils, or markers to write a response will result in the test **not** being scored.
- Do not cross out the responses the student does not choose. This may affect the scoring results.

When testing has begun, check that students are marking and writing their answers in the appropriate places in their answer documents using No. 2 pencils. TAs should be careful not to interfere with the students' concentration as they check the students' progress.

If an error has occurred, give the student a new answer document. The student's responses must be transcribed into the new answer document. Do not erase the student's responses. Always have a witness present when transcribing the responses to the second answer document.

## Proper and Improper Marking Practices

For multiple-choice test questions in their answer documents, students should refrain from marking or “crossing out” the answer bubbles considered incorrect, filling in the correct answer, and erasing the marks over the incorrect choice bubbles. Figure 1 below shows an example of this practice. This practice is risky because students may inadvertently leave pencil marks in the scanned areas, thus jeopardizing their scores. This practice will generate a letter from ODE requesting the TA to stop teaching the practice.

**Figure 1. An example of improper marks in the scanned areas of a Grade 5 Reading Achievement Test answer document.**

R
Reading
Use Pencil Please

1. ● (B) ⊗ ⊕

2. ⊕ ● ⊗ ⊕

3. Write your response to question 3 in the space below.

**Improper strategy: marking of incorrect responses that intrudes into the scanned area in an answer document**

Students should be directed to mark any incorrect answer choice with a mark in the test booklet. One suggestion is to place a small X at the end of the incorrect choice in the test booklet to the right of the end of the answer option. Figure 2 below shows an example of this practice.

**Figure 2. An example of proper way to mark incorrect choices on a Grade 5 Reading Achievement Test booklet.**

R
Reading
Use Pencil Please

**Directions: Carefully read each question.**

1. What word is an antonym for cool?

A. warm

B. mild X

C. damp X

D. calm X

**Proper strategy: marking of incorrect responses in a student test booklet**

## Breaks

If the district allows breaks, it is the TA's responsibility to provide them for students during the administration of the test. It is recommended to provide at least a five-minute break every 30 minutes, but it is left up to the judgment of the TA to provide as many breaks as students need and to decide how long the breaks will be. These breaks are not part of the testing time. The TA should tell students before testing what they may do during the breaks (e.g., stand up and stretch). It is a security violation to have a lunch or recess break during the test administration.

Follow the directions below when providing a break.

- Tell students when the break will occur. Make an announcement five minutes before the break occurs.
- Keep students in the testing room. Lunch or recess will not occur as a break.
- **Do not allow talking during the break.**
- Encourage students to stand and stretch at their desks.
- Do not allow students to take out any additional materials during a break. Only the test booklet and answer document (closed and face down), protractor (grade 5), calculator (grades 6–8), and pencils may be on each desk.
- When the entire class (group) has had a break, direct students to resume the test.
- At any time during the test administration, a student may leave the room for a restroom break, but to ensure test security, only one student should leave at a time. **The entire class (group) may not use the restroom at the same time.**
- The students should be monitored during the break to ensure that the students do not discuss the test or obtain an answer key.

Students are not allowed to talk during the test administration. Direct students to raise their hands if they finish a test before the other students have finished. Collect their test booklets and answer documents and direct them to take out their silent work.

Toward the end of the testing period but while students still have their test booklets and answer documents, it is good testing practice to remind students to complete the entire test. Do not review a student's answer document after it is handed in, and do not give it back to the student with instructions to complete the test. It is a violation of the Ohio Revised Code to give students information about correct and incorrect answers or to provide hints that lead them to correct answers.

Students under an IEP or 504 Plan or LEP students who have extended time as an accommodation should be allowed a lunch break. The students should be observed during the lunch break to ensure that they do not discuss the test.

## Procedures Following Test Administration

When the allotted time for a test has elapsed, collect the remaining test booklets and answer documents. Do not allow any student to leave the room until his or her test booklet and answer document have been collected. Collect a test booklet and answer document from each student individually. Do not allow students to "pass around" test materials. Do not allow students to use any electronic devices until all tests have been collected.

Immediately after testing and before dismissing students, carefully count the test booklets and answer documents to ensure that all student materials have been collected.

After test administration, TAs must affix the Pre-ID label or complete the demographic information on the back cover and inside back cover of each answer document. For students who do not have Pre-ID labels, demographic information can be hand-gridded or entered online through use of the Generic labels. In addition, mark the following sections for any qualified student:

- Section N, “LEP/IEP Status,” if the student is receiving services via an IEP or 504 Plan or if the student is identified as Limited English Proficient (LEP) in any subject tested.
- Section O, “Accommodations,” if the student is using any accommodations.
- Section P, “Special version of the test, if applicable,” if the student was administered a special version of the achievement tests.
- Section Q, “Migrant status,” if the student meets the federal definition of a migrant student.
- Section R, “Accelerated Testing,” if the student is taking an accelerated test.

After administering each test the TA will need to complete Section G, “Testing Group Number,” on the back Cover of each student’s answer document by filling in the assigned Testing Group Number for each test session. A district-designated person(s) is responsible for assigning and notifying a TA of the Testing Group Number(s). The purpose of assigning a Testing Group Number to a testing location is to aid in identifying a cohort of students quickly and easily should an anomaly occur during testing, such as defective materials being discovered after the test was administered.

It is also essential that Section J, “Form,” be bubbled accurately on the back cover of the answer document for each student because there may be three to seven different forms within a test building.

## Students Who Become Sick

A student who becomes ill and vomits on her or his test booklet or answer document and is able to continue the test should be given a new test booklet or answer document so that she or he may continue. Later, the student’s responses and demographic information must be transcribed into the new answer document, which will be the copy of the test to be scored. The soiled test booklet or answer document should be placed in a zip-lock bag and returned to the STC with the unused materials.

A student who becomes ill and vomits on her or his test booklet or answer document and is not able to continue the test should not be given a new test booklet or answer document. The TA must note the time elapsed, put the soiled test booklet or answer document in a zip-lock bag, seal the bag, and return it to the STC. The district will decide if the student will continue the test when she/he returns to school or the test may be invalidated. If the student continues the test, the student must resume the test at the place where she/he stopped. The time must be determined from the total 2½ hours. The completed responses must be transcribed from the soiled to the new answer document. Always have a witness present when transcribing responses to the second answer document.

## Incomplete or Defective Test Materials

If a student receives an incomplete or defective test booklet or answer document, follow the steps below with the student.

- Give him or her a new test booklet or answer document that is verified as accurate and complete.
- Direct the student to print his or her name on the new test booklet or answer document.
- Tell the student that the TA will write on his or her defective test materials so that what has happened will be clear to anyone.
- Direct the student to continue with the new test booklet or answer document (assuming that he or she discovered the defect after testing had begun).
- Later, transcribe all responses from the first (defective) answer document to the second, which will be the copy of the test used for scoring. Always have a witness present when transcribing the responses to the second answer document.

As the TA, complete the steps below to cross-reference all the materials used by a student.

- Write in large, bold letters the word **Defective** on the cover of the flawed test booklet or answer document. Make sure the defective materials are not distributed again but are put aside for later return with the nonscorable secure materials.
- Mark a large X and the words “DO NOT SCORE” on the front cover of the defective answer document.

## Things to Remember

### Before beginning:

- Verify that the correct number of test materials were received from the STC.
- Attain the “Testing Group Number” for the testing session from the STC or the person responsible for assigning these numbers.
- Gather and organize all necessary materials:
  - Student test booklets (the TA does not have a copy of the test booklet)
  - Answer documents
  - Supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
  - Supply of protractors (grade 5 only)
  - Supply of calculators (grades 6, 7 and 8 only)
  - Mathematics Reference Sheets (grade 8 only)
  - This administration manual
  - Watch or clock
  - Silent work for students who do not bring their own
- Decide when to give students breaks (if relevant) during the testing session. The time for breaks and directions is **not** included in the testing time. Students may not talk with each other during breaks.
- Be aware that a single TA may be alone with 30 students but that a monitor must also be present in the testing room with more than 30 students. The ratio of TAs/monitors to students is one TA/monitor to 30 students in any testing room. A TA must be in each testing room.

### While administering the test:

- Use the script in this manual. The script is printed in **bold** type.
- Answer questions to clarify general directions, but do not provide prompts for individual tasks or questions. Other than the general directions, do not read any test material to students. This includes the reading selections, items and answer choices.
- Stay in the classroom during the entire test. It is a security violation to leave students unattended during the test administration.

### After administering the test:

- Collect all student test booklets and answer documents. Before returning them to the STC, affix the Pre-ID and/or Generic labels or complete the demographic information on the back cover and inside back cover of the answer documents. Mark Sections N through R for applicable students; Section G, “Testing Group Number,” for all students and **Section J “Form” for all students.**

# ADMINISTERING THE GRADES 5, 6, 7, AND 8 READING ACHIEVEMENT TESTS

## Introduction

This section of the manual provides instructions for administering the Grades 5, 6, 7, and 8 Reading Achievement Tests. The oral directions are in the form of a script that contains portions to be read aloud to students, as well as instructions for the TA. It is important that the TA become familiar with the contents of this manual before administering the test.

## The Grades 5, 6, 7, and 8 Reading Achievement Tests

The Grades 5, 6, 7, and 8 Reading Ohio Achievement Tests have been designed to measure students' understanding of concepts and skills in reading at each grade level.

### Description of Test Materials

Students are expected to write answers for short-answer and extended-response questions and to shade in their choice for all multiple-choice questions **in the answer document**. Answers written in the test booklet or on additional pages or papers added to the answer document **will not be scored**.

Students will print their first and last names on the front covers of the test booklet **and** answer document and on the back cover of the answer document. Because tests will be **spiraled** within test booklets, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document.

### Materials Needed for Testing

For the test administration, please have the following items available:

- Student Test Booklet for each student — this test booklet will be in the spiraled packet.
- Answer document for each student
- A Form SV for each student using a special version or has an accommodation that requires a Form SV, such as a read aloud.
- A supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
- This administration manual
- A watch or clock
- Silent work for students who do not bring their own

Silent work may be either a book or work that is **not related to the test**. This book or work should be chosen before the day of testing. The student will take out this work only when he or she has finished the test and his or her test booklet and answer document have been collected.

### Time Allotment

Test Administrators should allot 2½ hours of student work time for each administration of the Grades 5, 6, 7, and 8 Reading Achievement Tests. The 2½ hours do **not** include any break time that TAs elect to schedule as part of the testing.

## Key Steps for Administering the Test

- Give a test booklet, an answer document and a No. 2 pencil to each student.
- Explain to students that they will be taking a reading test and **must not** go forward to the mathematics test, science test, social studies test, or writing test.
- Inform students that they need to be quiet during the test and that if they have questions, they should raise their hands.
- Let students know that breaks will be provided (if applicable).
- Tell students that this is a chance to show what they know.
- Instruct students to write their first and last names on their test booklets and answer documents. Failure to do this correctly may delay score results.

## Reminder

- Students with disabilities are allowed accommodations that are based on their IEP or 504 Plan.
- Limited English Proficient (LEP) students may have extended time and the use of a dictionary. However, the test must be completed in one school day.

## Administering the Test

Read aloud, word for word, the material that is printed in **bold** type. The material in regular type is information for the TA and should not be read to students. The TA may repeat any part of these directions as many times as needed. However, do not suggest answers and do not evaluate student work. **Please make sure to read the appropriate text for the grade level (5, 6, 7, or 8) being administered.**

Students are **not** permitted to use reference materials, such as print or electronic forms of dictionaries, thesauruses or spell-check software (except LEP students, who may use dictionaries). Allowable accommodations are permitted for students with a signed IEP or 504 Plan.

Students' desks should be cleared of all materials except pencils before testing begins. All electronic devices (cell phones, iPods, etc.) **must** be collected before testing begins.

Make sure students use a No. 2 pencil to mark the answer document.

After students are seated in the desired arrangement, read aloud the following script **before** distributing the test booklets and answer documents. Please note the grade level in parentheses and read the correct grade level.

### Script

**You are now going to take the Ohio Grade (5, 6, 7, or 8) Reading Achievement Test. This is a test of how well you understand what you read. It is important that you do your best work on this test. Otherwise, it will not really show how well you can do in reading. You can make sure that your test scores give a true picture of what you know and what you can do by doing your best on the test. Remember to do your own work. You are not to copy or share your work with anyone.**

**You have a book to read or some work that you can do at your desk in case you finish early. I will refer to this book or work as your silent work. Place your silent work where you can find it easily, but you are not to take it out at any time during the test. After you have completed the test and I have collected your test booklet, you can take out your silent work.**

**Make sure that you have a pencil on your desk. If you need another pencil during the test, raise your hand and I will give you one. If you need to change an answer, make sure that you completely erase the answer you do not want.**

**Are there any questions?**

Answer any questions.

**I will hand out the test booklets and answer documents now. Do not open your test booklet or answer document until I tell you to do so.**

Make sure that each student receives a test booklet, answer document, and grade-specific tool and has a pencil. Hold up a test booklet and answer document and point to the place on the covers where students are to print their names.

**Print your first and last names carefully on the line provided on the front covers of the test booklet and answer document.**

Allow time for students to print their names.

**Turn over your answer document to the back cover.**

Hold up an answer document and point to Section A on the back cover where students are to print their names.

**Print your first and last name carefully on the line provided in Section A on the back cover of the answer document.**

Allow time for students to print their names.

**Turn to page 1 in your test booklet and read along as I read the directions.****Directions:**

Today you will be taking the Ohio Grade (5, 6, 7, or 8) Reading Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
3. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of space provided for your answers is the same for all two- and four-point questions.
4. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.

5. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
6. Check over your work when you are finished.
7. When you finish the test, you may not go on to any other section of the Student Test Booklet.

If the district DOES NOT offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet. You should look over the pages of the reading test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire reading test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

If the district DOES offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word “STOP” in your Student Test Booklet, you should look over the pages of the reading test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire reading test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**Are there any questions?**

Pause for students' questions.

**We are now ready to begin. You may turn the page in your test booklet and open to page 2 in your answer document and start working.**

Record the start time in the box below.

Observe the time and write it down. (Breaks are optional)	Start time _____
	1st break time _____
	1st resume time _____
	2nd break time _____
	2nd resume time _____
	3rd break time _____
	3rd resume time _____
	4th break time _____
	4th resume time _____
	Stop time _____

Remember, a TA may answer questions about the general directions, but may not suggest ideas or answers or clarify specific test question directions. A TA may not evaluate a student's work.

Observe students to determine that they understand the directions. First, help those students who have questions. Then circulate among students, checking that they are recording their answers properly, they are using a pencil, and they are taking the reading test.

Remember to allow 2½ hours for students who need the maximum amount of time to complete the test.

Walk around the room periodically to make sure students are working unaided and are using No. 2 pencils. Do not examine the test booklets or answer documents for answers.

If taking a break, five minutes before the break, say:

**We will take a short break in five minutes.**

After five minutes, say:

**Stop working, put down your pencil and close your test booklet and answer document. Do not take anything out. You may not work on the test or on your silent work at this time. During the break, you may not talk to other students.**

Give students a break (the TA must determine how long the break will be). Test materials may remain on students' desks but must be closed. If food is provided and is served on the student's desk during the break, the test booklet and answer document must be collected. When the break is over, resume the script at this point. Say:

Now we are going to continue with the reading test. Turn to the pages where you stopped before the break. Does everyone have the right places?

Pause.

After you begin, you should continue until you see the word “STOP” in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word “STOP” in your Student Test Booklet, you should look over the pages of the reading test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire reading test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.

You may begin.

Mark the resume time in the box on page 17.

## Collecting Student Test Booklets and Answer Documents

As students complete the test, they should raise their hands so that the TA can collect their test booklets and answer documents. Make sure that each student has printed his or her first and last names on the front cover of the test booklet and on the front and back covers of the answer document. Allow students who have finished the test early to do their silent work at their desks, or follow the procedures established for your building.

When only a few students are still working, the TA may wish to follow the district’s plan for moving students who need additional time to another area in the building. The transition time is **not** included in the 2½-hour maximum amount of time allowed for each student.

For students who require the maximum amount of time, at the end of the 2½ hours, say:

**Stop. Put your pencil down and close your test booklet and answer document. I will now collect the test booklets and answer documents.**

Collect the test booklets and answer documents.

All materials should be returned to secure storage or secured as directed by the STC.

## Test Administrator Comment Form

It is not necessary to complete this form if there are no comments. If the TA has any comments, concerns or suggestions about OAT administrations, please complete the Test Administrator Comment Form, which can be found at <http://www.ohiodocs.org/OAT.htm>.

The purpose of the form is to collect comments and suggestions for improving test materials and procedures.

Do **not** send a paper form. These will not be reviewed or returned. Please use the online form.

# ADMINISTERING THE GRADES 5, 6, 7, AND 8 MATHEMATICS ACHIEVEMENT TESTS

## Introduction

This section of the manual provides instructions for administering the Grades 5, 6, 7, and 8 Mathematics Achievement Tests. The oral directions are in the form of a script that contains portions to be read aloud to students, as well as instructions for the TA. It is important that the TA become familiar with the contents of this manual before administering the test.

## The Grades 5, 6, 7, and 8 Mathematics Achievement Tests

The Grades 5, 6, 7, and 8 Mathematics Ohio Achievement Tests have been designed to measure students' understanding of concepts and skills related to Ohio's Academic Content Standards in mathematics at each grade level.

### Description of Test Materials

Students are expected to write answers for short-answer and extended-response questions and shade in their choice for all multiple-choice questions in **the answer document**. Answers written in the test booklet or on additional pages or papers added to the answer document **will not be scored**.

Students will print their first and last names on the front covers of the test booklet **and** answer document and on the back cover of the answer document. Because tests will be **spiraled** within test booklets, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document.

### Materials Needed for Testing

For the test administration, please have the following items available:

- Student Test Booklet for each student — this test booklet will be in the spiraled packet.
- Answer document for each student
- A Form SV for each student using a special version or has an accommodation that requires a Form SV, such as a read aloud
- A supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
- Allowable protractors provided either by the student or the TA — grade 5 only (see page 7 for a description of the criteria for acceptable protractors)
- Allowable calculators provided either by the student or the TA — grades 6, 7 and 8 only (see pages 7 and 8 for a description of the criteria for acceptable calculators)
- Mathematics Reference Sheet — grade 8 only
- This administration manual
- A watch or clock
- Silent work for students who do not bring their own

Silent work may be either a book or work that is **not related to the test**. This book or work should be chosen before the day of testing. The student will take out this work only when he or she has finished the test and his or her test booklet and answer document have been collected.

## Time Allotment

Test Administrators should allot 2½ hours of student work time for each administration of the Grades 5, 6, 7, and 8 Mathematics Achievement Tests. The 2½ hours do **not** include any break time that TAs elect to schedule as part of the testing.

## Key Steps for Administering the Test

- Give a test booklet, an answer document and a No. 2 pencil to each student.
- Inform students taking the grade 8 test that a removable Mathematics Reference Sheet is included in the test booklet.
- Verify that protractors (for grade 5) or calculators (for grades 6, 7 and 8) used by students are allowable.
- Explain to students that they will be taking a mathematics test, and **must not** go back to the reading test or forward to the science test, social studies test, or writing test.
- Inform students that they need to be quiet during the test and that if they have questions, they should raise their hands.
- Let students know that breaks will be provided (if applicable).
- Tell students that this is a chance to show what they know.
- Instruct students to write their first and last names on their test booklets and answer documents. Failure to do this correctly may delay score results.

## Reminder

- Students with disabilities are allowed accommodations that are based on their IEP or 504 Plan.
- Limited English Proficient (LEP) students may have extended time and the use of a dictionary. However, the test must be completed in one school day.

## Administering the Test

Read aloud, word for word, the material that is printed in **bold** type. The material in regular type is information for the TA and should not be read to students. The TA may repeat any part of these directions as many times as needed. However, do not suggest answers and do not evaluate student work. **Please make sure to read the appropriate text for the grade level (5, 6, 7, or 8) being administered.**

Students are **not** permitted to use reference materials, such as print or electronic forms of dictionaries, thesauruses or spell-check software (except LEP students, who may use dictionaries). Allowable accommodations are permitted for students with a signed IEP or 504 Plan.

Students' desks should be cleared of all materials except pencils (protractors — grade 5; calculators — grades 6, 7 and 8; Mathematics Reference Sheets — grade 8) before testing begins. All electronic devices (cell phones, iPods, etc.) **must** be collected before testing begins.

Make sure students use a No. 2 pencil to mark the answer document.

After students are seated in the desired arrangement, read aloud the following script **before** distributing the test booklets and answer documents. Please note the grade level and tools in parentheses and read the correct grade level and tool for the test you are administering.

 Script

**You are now going to take the Ohio Grade (5, 6, 7, or 8) Mathematics Achievement Test.**

**Make sure that you have a pencil on your desk. You may also use a (protractor — grade 5; calculator — grades 6, 7, or 8; Mathematics Reference Sheet — grade 8) on this test. If you need another pencil during the test, raise your hand and I will give you one. If you need to change an answer, make sure that you completely erase the answer you do not want.**

**Are there any questions?**

Answer any questions.

**I will hand out the test booklets, answer documents and (protractors — grade 5, calculators — grades 6, 7, or 8 or Mathematics Reference Sheets — grade 8) now. Do not open your test booklet or answer document until I tell you to do so.**

Make sure that each student receives a test booklet, answer document and grade-specific tool and has a pencil. Hold up a test booklet and answer document and point to the place on the covers where students are to print their names.

**Print your first and last names carefully on the line provided on the front covers of the test booklet and answer document.**

Allow time for students to print their names.

**Turn over your answer document to the back cover.**

Hold up an answer document and point to Section A on the back cover where students are to print their names.

**Print your first and last name carefully on the line provided in Section A on the back cover of the answer document.**

Allow time for students to print their names.

Use this page if administering the *grade 5 mathematics test*.

Turn to page 37 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 5 Mathematics Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. You may use the blank areas of your Student Test Booklet to solve problems. You may also use the optional grid paper in the answer document to solve problems.
3. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the gridded space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
4. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of gridded space provided for your answers is the same for all two- and four-point questions.
5. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
6. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
7. You may use a protractor on this test.
8. Check over your work when you are finished.
9. When you finish the test, you may not go on to, or back to, any other section of the Student Test Booklet.

Skip the next 3 pages if not administering the grades 6, 7 or 8 mathematics tests.

Use this page if administering the *grade 6 mathematics test*.

Turn to page 31 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 6 Mathematics Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. You may use the blank areas of your Student Test Booklet to solve problems. You may also use the optional grid paper in the answer document to solve problems.
3. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the gridded space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
4. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of gridded space provided for your answers is the same for all two- and four-point questions.
5. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
6. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
7. Check over your work when you are finished.
8. When you finish the test, you may not go back to any other section of the Student Test Booklet.

Skip the next 2 pages if not administering the grades 7 or 8 mathematics tests.

Use this page if administering the *grade 7 mathematics test*.

Turn to page 29 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 7 Mathematics Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. You may use the blank areas of your Student Test Booklet to solve problems. You may also use the optional grid paper in the answer document to solve problems.
3. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the gridded space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
4. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of gridded space provided for your answer is the same for all two- and four-point questions.
5. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
6. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
7. Check over your work when you are finished.
8. When you finish the test, you may not go on to, or back to, any other section of the Student Test Booklet.

Skip the next page if not administering the grade 8 mathematics test.

Use this page if administering the *grade 8 mathematics test*.

Turn to page 33 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 8 Mathematics Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. You may use the blank areas of your Student Test Booklet to solve problems. You may also use the optional grid paper in the answer document to solve problems.
3. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the gridded space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
4. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of gridded space provided for your answer is the same for all two- and four-point questions.
5. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
6. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
7. Check over your work when you are finished.
8. When you finish the test, you may not go on to, or back to, any other section of the Student Test Booklet.

Continue to the next page.

If the district DOES NOT offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet. You should look over the pages of the mathematics test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire mathematics test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

If the district DOES offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word “STOP” in your Student Test Booklet, you should look over the pages of the mathematics test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire mathematics test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**Are there any questions?**

Pause for students’ questions.

**We are now ready to begin. You may turn the page in your test booklet and open to page (13 — grade 5, 13 — grade 6, 11 — grades 7, 8) in your answer document and start working.**

Record the start time in the box below.

Observe the time and write it down. (Breaks are optional)	Start time _____
	1st break time _____
	1st resume time _____
	2nd break time _____
	2nd resume time _____
	3rd break time _____
	3rd resume time _____
	4th break time _____
	4th resume time _____
	Stop time _____

Remember, a TA may answer questions about the general directions, but may not suggest ideas or answers or clarify specific test question directions. A TA may not evaluate a student’s work.

Observe students to determine that they understand the directions. First, help those students who have questions. Then circulate among students, checking that they are recording their answers properly, they are using a pencil, and they are taking the mathematics test.

Remember to allow 2½ hours for students who need the maximum amount of time to complete the test.

Walk around the room periodically to make sure students are working unaided and are using No. 2 pencils. Do not examine the test booklets or answer documents for answers.

If taking a break, five minutes before the break, say:

**We will take a short break in five minutes.**

After five minutes, say:

**Stop working, put down your pencil and close your test booklet and answer document. Do not take anything out. You may not work on the test or on your silent work at this time. During the break, you may not talk to other students.**

Give students a break (the TA must determine how long the break will be). Test materials may remain on students' desks but must be closed. If food is provided and is served on the student's desk during the break, the test booklet and answer document must be collected. When the break is over, resume the script at this point. Say:

**Now we are going to continue with the mathematics test. Turn to the pages where you stopped before the break. Does everyone have the right places?**

Pause.

**After you begin, you should continue until you see the word "STOP" in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word "STOP" in your Student Test Booklet, you should look over the pages of the mathematics test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire mathematics test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**You may begin.**

Mark the resume time in the box on page 26.

## Collecting Student Test Booklets and Answer Documents

As students complete the test, they should raise their hands so that the TA can collect their test booklets, answer documents and grade-level tools (protractors, calculators, or Mathematics Reference Sheets). Make sure that each student has printed his or her first and last names on the front cover of the test booklet and on the front and back covers of the answer document. Allow students who have finished the test early to do their silent work at their desks, or follow the procedures established for your building.

When only a few students are still working, the TA may wish to follow the district's plan for moving students who need additional time to another area in the building. The transition time is **not** included in the 2½ hour maximum amount of time allowed for each student.

For students who require the maximum amount of time, at the end of the 2½ hours, say:

**Stop. Put your pencil down and close your test booklet and answer document. I will now collect the test booklets and answer documents.**

Collect the test booklets, answer documents and grade-level tools (protractors, calculators, or Mathematics Reference Sheets).

All materials should be returned to secure storage or secured as directed by the STC.

## Test Administrator Comment Form

It is not necessary to complete this form if there are no comments. If the TA has any comments, concerns or suggestions about OAT administrations, please complete the Test Administrator Comment Form, which can be found at <http://www.ohiodocs.org/OAT.htm>.

The purpose of the form is to collect comments and suggestions for improving test materials and procedures.

Do **not** send a paper form. These will not be reviewed or returned. Please use the online form.

# ADMINISTERING THE GRADES 5 AND 8 SCIENCE ACHIEVEMENT TESTS

## Introduction

This section of the manual provides instructions for administering the Grades 5 and 8 Science Achievement Tests. The oral directions are in the form of a script that contains portions to be read aloud to students, as well as instructions for the TA. It is important that the TA becomes familiar with the contents of this manual before administering the test.

## The Grades 5 and 8 Science Achievement Tests

The Grades 5 and 8 Science Ohio Achievement Tests have been designed to measure students' understanding of concepts and skills related to Ohio's Academic Content Standards in science at each grade level.

### Description of Test Materials

Students are expected to write answers for short-answer and extended-response questions and shade in their choice for multiple-choice questions in **the answer document**. Answers written in the Student Test Booklet or on additional pages or papers added to the answer document **will not be scored**.

Students will print their first and last names on the front covers of the Student Test Booklet **and** answer document and on the back cover of the answer document. Because tests will be **spiraled** within test booklets, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document.

### Materials Needed for Testing

For the test administration, please have the following items available:

- Student Test Booklet for each student — this test booklet will be in the spiraled packet.
- Answer document for each student
- A Form SV for each student using a special version or has an accommodation that requires a Form SV, such as read aloud
- A supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
- This administration manual
- A watch or clock
- Silent work for students who do not bring their own

Silent work may be either a book or work that is **not related to the test**. This book or work should be chosen before the day of testing. The student will take out this work only when he or she has finished the test and his or her test booklet and answer document have been collected.

### Time Allotment

TAs should allot 2½ hours of student work time for the administration of the Grades 5 and 8 Science Achievement Tests. The 2½ hours does **not** include any break time that TAs elect to schedule as part of the testing, nor does it include the time needed to complete the demographic page in the answer document.

## Key Steps for Administering the Test

- Give a Student Test Booklet, an answer document and a No. 2 pencil to each student.
- Explain to students that they will be taking a science test, and **may not** go back to the reading or mathematics test, or forward to the social studies test.
- Inform students that they need to be quiet during the test and that if they have questions, they should raise their hands.
- Let students know that breaks will be provided (if applicable).
- Tell students that this is a chance to show what they know.
- Instruct students to write their first and last names on their test booklets and answer documents. Failure to do this correctly may delay score results.

## Reminder

- Students with disabilities are allowed accommodations that are based on their IEP or 504 Plans.
- Limited English proficient (LEP) students may have extended time and the use of a dictionary. However, the test must be completed in one school day.

## Administering the Test

Read aloud, word for word, the material that is printed in **bold** type. The material in regular type is information for the TA and should not be read to students. The TA may repeat any part of these directions as many times as needed. However, do not suggest answers and do not evaluate student work.

Students are **not** permitted to use reference materials such as print or electronic forms of dictionaries, thesauruses or spell-check software (except LEP students, who may use dictionaries). Allowable accommodations are permitted for students with a signed IEP or 504 Plan.

Students' desks should be cleared of all materials except pencils before testing begins. All electronic devices (cell phones, iPods, etc.) **must** be collected before testing begins.

Make sure students use a No. 2 pencil to mark the answer document.

After students are seated in the desired arrangement, read aloud the following script **before** distributing the Student Test Booklets and answer documents.

### Script

**You are now going to take the Ohio Grade (5 or 8) Science Achievement Test. It is important that you do your best work on this test. Otherwise it will not really show how well you can do in science. You can make sure your test scores give a true picture of what you know and what you can do by doing your best on this test. Remember to do your own work. You are not to copy or share work WITH anyone.**

**You have a book to read or some work that you can do at your desk in case you finish early. I will refer to this book or work as your silent work. Place your silent work where you can find it easily, but you are not to take it out at any time during the test. After you have completed the test and I have collected your Student Test Booklet and answer document, you can take out your book or other silent work.**

**Make sure that you have a pencil on your desk. If you need another pencil during the test, raise your hand and I will give you one. If you need to change an answer, make sure that you completely erase the answer you do not want.**

**Are there any questions?**

Answer any questions.

**I will hand out the Student Test Booklets and answer documents now. Do not open your Student Test Booklet or answer document until I tell you to do so.**

Make sure that each student receives a Student Test Booklet and answer document and has a pencil. Hold up a Student Test Booklet and answer document and point to the place on the covers where students are to print their names.

**Print your first and last names carefully on the line provided on the front covers of the Student Test Booklet and answer document.**

Allow time for students to print their names on the covers.

**Turn over your answer document to the back cover.**

Hold up an answer document and point to Section A on the back cover where students are to print their names.

**Print your first and last name carefully on the line provided in Section A on the back cover of the answer document.**

Allow time for students to print their names.

**Turn to page (69 – grade 5, 65– grade 8) in your Student Test Booklet and read along as I read the directions.**

**Directions:**

**Today you will be taking the Ohio Grade (5 or 8) Science Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.**

**There are several important things to remember:**

- 1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.**
- 2. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.**
- 3. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of space provided for your answers is the same for all two- and four-point questions.**
- 4. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.**

5. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
6. Check over your work when you are finished.
7. When you finish the test, you may not go on to, or back to, any other section of the Student Test Booklet.

If the district DOES NOT offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet. You should look over the pages of the science test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire science test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

If the district DOES offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word “STOP” in your Student Test Booklet, you should look over the pages of the science test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire science test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**Are there any questions?**

Pause for students' questions.

**We are now ready to begin. You may turn the page in your test booklet and open to page (22 — grade 5, 20 — grade 8) in your answer document and start working.**

Record the start time in the box below.

Observe the time and write it down. (Breaks are optional)	Start time _____
	1st break time _____
	1st resume time _____
	2nd break time _____
	2nd resume time _____
	3rd break time _____
	3rd resume time _____
	4th break time _____
	4th resume time _____
	Stop time _____

Remember, a TA may answer questions about the general directions, but may not suggest ideas or answers or clarify specific test question directions. A TA may not evaluate students' work.

Observe students to determine that they understand the directions. First, help those students who have questions. Then circulate among students, checking that they are recording their answers properly, they are using a pencil, and they are taking the science test.

Remember to allow 2½ hours for students who may need the maximum amount of time to complete the test.

Walk around the room periodically to make sure students are working unaided and are using No. 2 pencils. Do not examine the test booklets or answer documents for answers.

If taking a break, five minutes before the break, say:

**We will take a short break in five minutes.**

After five minutes, say:

**Stop working, put down your pencils, and close your Student Test Booklets and answer documents. Do not take anything out. You may not work on the test or on your silent work at this time. During the break, you may not talk to other students.**

Give students a break (the TA must determine how long the break will be). Test materials may remain on the students' desks but must be closed. If food is provided and is served on the student's desk during the break, the test booklet and answer document must be collected. When the break is over, resume the script at this point. Say:

**Now we are going to continue with the science test. Turn to the pages where you stopped before the break. Does everyone have the right places?**

Pause.

**After you begin, you should continue until you see the word "STOP" in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word "STOP" in your Student Test Booklet, you should look over the pages of the science test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire science test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**You may begin.**

Mark the resume time in the box on page 32.

## Collecting Student Test Booklets and Answer Documents

As students complete the test, they should raise their hands so that the TA can collect their Student test booklets and answer documents. Make sure that each student has printed his or her first and last names on the front cover of the test booklet and on the front and back covers of the answer document. Allow students who have finished the test early to do silent work at their desks, or follow the procedures established for your building.

When only a few students are still working, the TA may wish to follow the district's plan for moving students who need additional time to another area in the building. The transition time is **not** included in the 2½ hour maximum amount of time allowed for each student.

For students who require the maximum amount of time, at the end of the 2½ hours, say:

**Stop. Put your pencil down and close your Student Test Booklet and answer document. I will now collect the test booklets and answer documents.**

Collect the Student Test Booklets and answer documents.

All materials should be returned to secure storage or secured as directed by the STC.

## Test Administrator Comment Form

It is not necessary to complete this form if there are no comments. If the TA has any comments, concerns or suggestions about OAT administrations, please complete the Test Administrator Comment Form, which can be found at <http://www.ohiodocs.org/OAT.htm>.

The purpose of the form is to collect comments and suggestions for improving test materials and procedures.

Do **not** send a paper form. These will not be reviewed or returned. Please use the online form.

# ADMINISTERING THE GRADES 5 AND 8 SOCIAL STUDIES ACHIEVEMENT TESTS

## Introduction

This section of the manual provides instructions for administering the Grades 5 and 8 Social Studies Achievement Tests. The oral directions are in the form of a script that contains portions to be read aloud to students, as well as instructions for the TA. It is important that the TA become familiar with the contents of this manual before administering the test.

## The Grades 5 and 8 Social Studies Achievement Tests

The Grades 5 and 8 Social Studies Ohio Achievement Tests have been designed to measure students' understanding of concepts and skills related to Ohio's Academic Content Standards in social studies at each grade level.

### Description of Test Materials

Students are expected to write answers for short-answer and extended-response questions and shade in their choice for multiple-choice questions in **the answer document**. Answers written in the Student Test Booklet or on additional pages or papers added to the answer document **will not be scored**.

The student will print his or her first and last names on the front covers of the Student Test Booklet **and** the answer document and on the back cover of the answer document. Because tests will be **spiraled** within test booklets, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document.

### Materials Needed for Testing

For the test administration, please have the following items available:

- Student Test Booklet for each student — this test booklet will be in the spiraled packet.
- Answer document for each student
- A Form SV for each student using a special version or has an accommodation that requires a Form SV, such as a read aloud
- A supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
- This administration manual
- A watch or clock
- Silent work for students who do not bring their own

Silent work may be either a book or work that is **not related to the test**. This book or work should be chosen before the day of testing. The student will take out this work only when he or she has finished the test and his or her test booklet and answer document have been collected.

### Time Allotment

TAs should allot 2½ hours of student work time for the administration of the Grades 5 and 8 Social Studies Achievement Tests. The 2½ hours does **not** include any break time that TAs elect to schedule as part of the testing, nor does it include the time needed to complete the demographic page in the answer document.

## Key Steps for Administering the Test

- Give a Student Test Booklet, an answer document and a No. 2 pencil to each student.
- Explain to students that they will be taking a social studies test, and **must not** go back to the reading test, mathematics test, or science test.
- Inform students that they need to be quiet during the test and that if they have questions, they should raise their hands.
- Let students know that breaks will be provided (if applicable).
- Tell students that this is a chance to show what they know.
- Instruct students to write their first and last names on their test booklets and answer documents. Failure to do this correctly may delay score results.

## Reminder

- Students with disabilities are allowed accommodations that are based on their IEP or 504 Plans.
- Limited English Proficient (LEP) students may have extended time and the use of a dictionary. However, the test must be completed in one school day.

## Administering the Test

Read aloud, word for word, the material that is printed in **bold** type. The material in regular type is information for the TA and should not be read to students. The TA may repeat any part of these directions as many times as needed. However, do not suggest answers and do not evaluate student work. **Please make sure to read the appropriate text for the grade level (5 or 8) being administered.**

Students are **not** permitted to use reference materials such as print or electronic forms of dictionaries, thesauruses or spell-check software (except LEP students, who may use dictionaries). Allowable accommodations are permitted for students with a signed IEP or 504 Plan.

Students' desks should be cleared of all materials except pencils before testing begins. All electronic devices (cell phones, iPods, etc.) **must** be collected before testing begins.

Make sure students use a No. 2 pencil to mark the answer document.

After students are seated in the desired arrangement, read aloud the following script **before** distributing the Student Test Booklets and answer documents.

### Script

**You are now going to take the Ohio Grade (5 or 8) Social Studies Achievement Test. It is important that you do your best work on this test. Otherwise it will not really show how well you can do in social studies. You can make sure your test scores give a true picture of what you know and what you can do by doing your best on this test. Remember to do your own work. You are not to copy or share work with anyone.**

**You have a book to read or some work that you can do at your desk in case you finish before everyone else. I will refer to this book or work as your silent work. Place your silent work where you can find it easily, but you are not to take it out at any time during the test. After you have completed the test and I have collected your Student Test Booklet and answer document, you can take out your book or other silent work.**

**Make sure that you have a pencil on your desk. If you need another pencil during the test, raise your hand and I will give you one. If you need to change an answer, make sure that you completely erase the answer you do not want.**

**Are there any questions?**

Answer any questions.

**I will hand out the Student Test Booklets and answer documents. Do not open your Student Test Booklet or answer document until I tell you to do so.**

Make sure that each student receives a Student Test Booklet and answer document and has a pencil. Hold up a Student Test Booklet and answer document and point to the place on the covers where students are to print their names.

**Print your first and last names carefully on the line provided on the front covers of the Student Test Booklet and answer document.**

Allow time for students to print their names on the covers.

**Turn over your answer document to the back cover.**

Hold up an answer document and point to Section A on the back cover where students are to print their names.

**Print your first and last name carefully on the line provided in Section A on the back cover of the answer document.**

Allow time for students to print their names.

Use this page if administering the *grade 5 social studies test*.

Turn to page 107 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 5 Social Studies Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
3. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of space provided for your answers is the same for two- and four-point questions.
4. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
5. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
6. Check over your work when you are finished.
7. When you finish the test, you may not go back to any section of the Student Test Booklet.

Skip the next page if not administering the grade 8 social studies test.

Use this page if administering the *grade 8 social studies test*.

Turn to page 103 in your test booklet and read along as I read the directions.

**Directions:**

Today you will be taking the Ohio Grade 8 Social Studies Achievement Test. Three different types of questions appear on this test: multiple choice, short answer and extended response.

There are several important things to remember:

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. For short-answer and extended-response questions, use a pencil to write your answers neatly and clearly in the space provided in the answer document. Any answers you write in the Student Test Booklet will not be scored.
3. Short-answer questions are worth two points. Extended-response questions are worth four points. Point values are printed near each question in your Student Test Booklet. The amount of space provided for your answers is the same for all two- and four-point questions.
4. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.

# ADMINISTERING THE GRADE 7 WRITING ACHIEVEMENT TEST

## Introduction

This section of the manual provides instructions for administering the Grade 7 Writing Achievement Test. The oral directions are in the form of a script that contains portions to be read aloud to students, as well as instructions for the TA. It is important that the TA become familiar with the contents of this manual before administering the test.

## The Grade 7 Writing Achievement Test

The Grade 7 Writing Ohio Achievement Test has been designed to measure students' understanding of concepts and skills related to Ohio's Academic Content Standards in writing at the grade 7 level.

### Description of Test Materials

Students are expected to write responses to the writing prompts and shade in their choice for multiple-choice questions in **the answer document**. Answers written in the Student Test Booklet or on additional pages or papers added to the answer document **will not be scored**.

Students will print their first and last names on the front covers of the Student Test Booklet **and** the answer document and on the back cover of the answer document. Because tests will be **spiraled** within test booklets, there are certain procedures that **must be followed** for testing in grades 5 through 8. On the first day of testing, students should write their names on the front of the test booklet and on the front and back of the answer document. Each test booklet and answer document should be returned to the same student on the subsequent days of testing. Because there may be three to seven different forms within a test building, **it is essential** that box J (Form) be bubbled accurately on the back of the answer document.

### Materials Needed for Testing

For the test administration, please have the following items available:

- Student Test Booklet for each student — this test booklet will be in the spiraled packet.
- Answer document for each student
- A Form SV for each student using a special version or has an accommodation that requires a Form SV, such as a read aloud.
- A supply of sharpened No. 2 pencils (pens, colored pencils or markers must **not** be used to write responses — tests will **not** be scored)
- This administration manual
- A watch or clock
- Silent work for students who do not bring their own

Silent work may be either a book or work that is **not related to the test**. This book or work should be chosen before the day of testing. The student will take out this work only when he or she has finished the test and his or her test booklet and answer document have been collected.

### Time Allotment

TAs should allot 2½ hours of student work time for the administration of the Grade 7 Writing Achievement Test. The 2½ hours does **not** include any break time that TAs elect to schedule as part of the testing, nor does it include the time needed to complete the demographic page in the answer document.

## Key Steps for Administering the Test

- Give a Student Test Booklet, an answer document and a pencil to each student.
- Explain to students that they will be taking a writing test, and **must not** go back to the reading test or the mathematics test.
- Inform students that they need to be quiet during the test and that if they have questions, they should raise their hands.
- Let students know that breaks will be provided (if applicable).
- Tell students that this is a chance to show what they know.
- Instruct students to write their first and last names on their Student Test Booklets and answer documents. Failure to do this correctly may delay score results.

## Reminder

- Students with disabilities are allowed accommodations that are based on their IEP or 504 Plans.
- Limited English Proficient (LEP) students may have extended time and the use of a dictionary. However, the test must be completed in one school day.

## Administering the Test

Read aloud, word for word, the material that is printed in **bold** type. The material in regular type is information for the TA and should not be read to students. The TA may repeat any part of these directions as many times as needed. However, do not suggest answers and do not evaluate student work.

Students are **not** permitted to use reference materials such as print or electronic forms of dictionaries, thesauruses or spell-check software (except LEP students, who may use dictionaries). Allowable accommodations are permitted for students with a signed IEP or 504 Plan.

Students' desks should be cleared of all materials except pencils before testing begins. All electronic devices (cell phones, iPods, etc.) **must** be collected before testing begins.

Make sure students use a No. 2 pencil to mark the answer document.

After students are seated in the desired arrangement, read aloud the following script **before** distributing the test booklets and answer documents.

### Script

**You are now going to take the Ohio Grade 7 Writing Achievement Test. It is important that you do your best work on this test. Otherwise it will not really show how well you can do in writing. You can make sure your test scores give a true picture of what you know and what you can do by doing your best on this test. Remember to do your own work. You are not to copy or share work with anyone.**

**You have a book to read or some work that you can do at your desk in case you finish early. I will refer to this book or work as your silent work. Place your silent work where you can find it easily, but you are not to take it out at any time during the test. After you have completed the test and I have collected your Student Test Booklet and answer document, you can take out your book or other silent work.**

**Make sure that you have a pencil on your desk. If you need another pencil during the test, raise your hand and I will give you one. If you need to change an answer, make sure that you completely erase the answer you do not want.**

**Are there any questions?**

Answer any questions.

**I will hand out the Student Test Booklets and answer documents. Do not open your test booklet or answer document until I tell you to do so.**

Make sure that each student receives a Student Test Booklet and answer document and has a pencil. Hold up a Student Test Booklet and answer document and point to the place on the covers where students are to print their names.

**Print your first and last names carefully on the line provided on the front covers of the Student Test Booklet and answer document.**

Allow time for students to print their names on the covers.

**Turn over your answer document to the back cover.**

Hold up an answer document and point to Section A on the back cover where students are to print their names.

**Print your first and last name carefully on the line provided in Section A on the back cover of the answer document.**

Allow time for students to print their names.

**Turn to page 59 in your Student Test Booklet and read along as I read the directions.**

**Directions:**

Today you will be taking the Ohio Grade 7 Writing Achievement Test. This is a test of how well you write. Two different types of questions appear on this test: multiple choice and writing prompts.

**There are several important things to remember:**

1. Read each question carefully. Think about what is being asked. Look carefully at graphs or diagrams because they will help you understand the question.
2. Each writing prompt is worth 13 points. When responding to the writing prompts, use a pencil to write your answers neatly and clearly in the space provided in the answer document. Any responses you write in the Student Test Booklet will not be scored.
3. Each multiple-choice question is worth 1 point. For multiple-choice questions, shade in the circle next to your choice in the answer document for the test question. Mark only one choice for each question. Darken completely the circles on the answer document. If you change an answer, make sure that you erase your old answer completely.
4. The maximum time allowed for the test is 2½ hours. Plan your time to completely respond to the two writing-prompt questions because 26 of the 41 total possible points on this test can be earned by responding to them. One writing-prompt question is at the beginning of the test; the other is at the end. You may refer to the questions as often as necessary.

5. Do not spend too much time on one question. Go on to the next question and return to the question skipped after answering the remaining questions.
6. Check over your work when you are finished.
7. When you finish the test, you may not go back to any other section of the Student Test Booklet.

If the district DOES NOT offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet. You may look over the pages of the writing test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire writing test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

If the district DOES offer a break, say:

**After you begin, you should continue until you see the word “STOP” in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word “STOP” in your Student Test Booklet, you should look over the pages of the writing test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire writing test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**Are there any questions?**

Pause for students’ questions.

**We are now ready to begin. You may turn to page 61 of your test booklet and page 20 of your answer document and start working.**

Record the start time in the box below.

Observe the time and write it down. (Breaks are optional)	Start time _____ 1st break time _____ 1st resume time _____ 2nd break time _____ 2nd resume time _____ 3rd break time _____ 3rd resume time _____ 4th break time _____ 4th resume time _____ Stop time _____
--	---

Remember, a TA may answer questions about the general directions, but may not suggest ideas or answers or clarify specific test question directions. A TA may not evaluate students' work.

Observe students to determine that they understand the directions. First, help those students who have questions. Then circulate among students, checking that they are recording their answers properly, they are using a pencil, and they are taking the writing test.

Remember to allow 2½ hours for students who may need the maximum amount of time to complete the test.

Walk around the room periodically to make sure students are working unaided and are using No. 2 pencils. Do not examine the test booklets and answer documents for answers.

If taking a break, five minutes before the break, say:

**We will take a short break in five minutes.**

After five minutes, say:

**Stop working, put down your pencils, and close your Student Test Booklet and answer document. Do not take anything out. You may not work on the test or on your silent work at this time. During the break, you may not talk to other students.**

Give students a break (the TA must determine how long the break will be). Test materials may remain on the students' desks but must be closed. If food is provided and is served on the students desk during the break, the test booklet and answer document must be collected. When the break is over, resume the script at this point. Say:

**Now we are going to continue with the writing test. Turn to the pages where you stopped before the break. Does everyone have the right places?**

Pause.

**After you begin, you should continue until you see the word "STOP" in your Student Test Booklet or until I announce that it is time to stop for a short break. If you see the word "STOP" in your Student Test Booklet, you should look over the pages of the writing test you just completed to make sure that you have answered all the questions. Please make sure that you have completed the entire writing test. When you are finished, raise your hand so that I can collect your Student Test Booklet and answer document.**

**You may begin.**

Mark the resume time in the box on page 46.

## Collecting Student Test Booklets and Answer Documents

As students complete the test, they should raise their hands so that the TA can collect their Student Test Booklets and answer documents. Make sure that each student has printed his or her first and last names on the front cover of the test booklet and on the front and back covers of the answer document. Allow students who have finished the test early to do silent work at their desks, or follow the procedures established for your building.

When only a few students are still working, the TA may wish to follow the district's plan for moving students who need additional time to another area in the building. The transition time is **not** included in the 2½ hour maximum amount of time allowed for each student.

For students who require the maximum amount of time, at the end of the 2½ hours, say:

**Stop. Put your pencil down and close your test booklet and answer document. I will now collect the test booklets and answer documents.**

Collect the Student Test Booklets and answer documents.

All materials should be returned to secure storage or secured as directed by the STC.

## Test Administrator Comment Form

It is not necessary to complete this form if there are no comments. If the TA has any comments, concerns or suggestions about OAT administrations, please complete the Test Administrator Comment Form, which can be found at <http://www.ohiodocs.org/OAT.htm>.

The purpose of the form is to collect comments and suggestions for improving test materials and procedures.

Do **not** send a paper form. These will not be reviewed or returned. Please use the online form.

# APPENDIX A

## STANDARDS FOR THE ETHICAL USE OF TESTS

### 3301-7-01 STANDARDS FOR THE ETHICAL USE OF TESTS

Effective 2/1/95

- (A) These standards of ethical assessment practice shall be used in determining whether or not a practice related to assessment is consistent with the principles of performing one's duties with honesty, integrity, due care, and fairness to all and ensuring the integrity of the assessment process and the reliability and validity of any inference made from any result of an assessment. Except as otherwise specified, the following definitions shall be used in this rule:
- (1) "Assessment" shall include secure and non-secure standardized achievement tests, the Ohio graduation tests, state proficiency tests, the English language proficiency test, diagnostic tests as required by section 3301.0715 of the Revised Code, and secure alternate measurement instruments provided by the department of education. Assessment shall also include district and school-wide standardized assessment including norm referenced tests. Assessment shall include the test instrument itself and any part of the process of assessing or testing a student;
  - (2) "Participating school" shall mean any city, exempted village, local, cooperative education, or joint vocational school districts any community or any chartered nonpublic school which participates in assessment; the state school for the blind; the state school for the deaf; or any school operated by the departments of youth services or rehabilitation and corrections; or any entity that tests its students with the statewide assessments;
  - (3) "Appropriate staff" shall include any designated certificated or non-certificated employee of a participating school who has direct access to an assessment or participates in any activity related to preparing a student for an assessment, administering or scoring an assessment, and/or interpreting or using any result of an assessment;
  - (4) "Secure assessment" shall include any assessment, whether state or national, that is administered to the entire or a portion of the entire state student population and/or that is provided by the state, the results of which are included in Ohio's accountability system, are included as part of a student's course, are part of the pre-college admission process, or are required by state and/or federal law. Secure assessments shall be treated as secure materials until released by the test developer and/or the department of education. They do not include any diagnostic assessment required to be administered pursuant to section 3301.0715 of the Revised Code, any practice Ohio graduation test required to be prescribed by the state board of education pursuant to section 3301.0710 of the Revised Code, any practice achievement test, or any assessment that already has been released to the public by the test developer or by the department of education as a public record following the school year that the assessment actually was administered; and
  - (5) "Statewide tests" means any assessment that is provided by the department of education for use in all participating schools in the state.
- (B) Each participating school and district shall ensure that all appropriate staff have knowledge of these standards of ethical assessment practice and shall monitor the practices of all appropriate staff to ensure compliance with these standards. Each participating school's and district's duties shall include, but not be limited to, the following:
- (1) Communicate in writing to all appropriate staff at least once annually the standards defining what is an unethical and/or inappropriate practice that are contained in paragraphs (C) through (E) of this rule as well as any additional standards of ethical assessment practice adopted by a participating school and district;

- (2) Clearly define and communicate in writing at least once annually to all appropriate staff how the standards shall be monitored and what sanctions shall apply for any violations of the standards and under what circumstances such sanctions will apply;
  - (3) Clearly define and communicate to all appropriate staff prior to each assessment the purpose(s) for each assessment;
  - (4) Clearly define and communicate in writing to all appropriate staff at least once annually all security procedures established by a participating school for each type of secure assessment identified in paragraph (A) of this rule, which shall include, but not be limited to, the test security provisions required by rule 3301-13-05 of the Administrative Code;
  - (5) Provide any other information and training as may be necessary to ensure that all appropriate staff have the knowledge and skills necessary to make ethical decisions related to preparing students for an assessment, administering and/or scoring an assessment, and/or interpreting and/or using any result of an assessment;
  - (6) Establish written procedures for reviewing what materials and practices shall be used in a participating school to prepare students for an assessment, and clearly communicate in writing these procedures, materials, and practices at least once annually to all appropriate staff;
  - (7) Periodically review materials and practices related to preparing students for an assessment, administering and/or scoring an assessment, and/or interpreting and/or using any result of an assessment in order to ensure that the materials and practices are up-to-date, and clearly communicate in writing any additions or changes at least once annually to all appropriate staff;
  - (8) Provide channels of communication that allow teachers, other educators, students, parents, and/or other members of the community to voice any concern about any practice they consider unethical and/or inappropriate; and
  - (9) Establish written procedures for investigating any complaint, allegation, and/or concern about an unethical and/or inappropriate practice, ensuring protection of the rights of an individual, the integrity of an assessment, and any result of an assessment.
- (C) In monitoring practices related to preparing students for a state-wide assessment, each participating school shall use, but not be limited to, the following standards that define the types of practices that are unethical and/or inappropriate:
- (1) Any preparation activity that undermines the reliability and/or validity of an inference made from any result of an assessment;
  - (2) Any preparation practice that results solely in raising scores or performance levels on a specific assessment without simultaneously increasing a student's achievement level as measured by other tasks and/or assessments designed to assess the same content domain;
  - (3) Any practice involving the reproduction of any secure assessment materials, through any medium, for use in preparing a student for an assessment;
  - (4) Any preparation activity that includes a question, task, graph, chart, passage, or other material included in an assessment, and/or material that is a paraphrase or highly similar in content to what is in an assessment;
  - (5) Preparation for an assessment that focuses primarily on the assessment, including its format, rather than on the objectives being assessed;

- (6) Any preparation practice that does not comply with, or has the appearance of not complying with any statutory and/or regulatory provision related to security of an assessment; and
  - (7) Any practice that supports or assists others in conducting unethical or inappropriate preparation activities.
- (D) Except as specifically permitted by written instructions provided by the developer of an assessment, by the department of education, or by Chapter 3301-13 of the Administrative Code pertaining to accommodations and/or alternate assessment, each participating school shall use, but not be limited to, the following standards that define the types of practices related to administering and/or scoring assessments that are unethical and/or inappropriate:
- (1) Any assessment used for purposes other than that for which it was intended;
  - (2) Any practice that results in a potential conflict of interest or one that exerts undue influence on a person administering and/or scoring an assessment, either making or appearing to make an assessment process unfair to some examinees;
  - (3) Except for accommodations and/or alternate assessments expressly permitted under Chapter 3301-13 of the Administrative Code, any change in procedures for administering and/or scoring an assessment that results in a nonstandard condition for one or more students;
  - (4) Any practice that allows a person without sufficient and appropriate knowledge, skills, and/or training to administer and/or score an assessment;
  - (5) Any administration and/or scoring practice that may produce a result contaminated by a factor not relevant to the purpose(s) of an assessment;
  - (6) Any practice of excluding one or more students from an assessment solely because a student has not performed well, or may not perform well, on the assessment and/or because the aggregate performance of a group may be affected;
  - (7) Any practice immediately preceding and/or during an assessment including, but not limited to, the use a gesture, facial expression, body language, language, or any other action and/or sound that may guide a students' response;
  - (8) Except for the directions for administration as prescribed by the test developer and/or by the department of education, any practice such as providing to a student, immediately preceding and/or during administration of an assessment, any definition and/or clarification of the meaning of a word or term contained in an assessment;
  - (9) Any practice that corrects or alters any student's response to an assessment either during and/or following the administration and/or scoring of an assessment; and
  - (10) Any practice that supports or assists any person in unethical and/or inappropriate practices during administration and/or scoring of an assessment.
- (E) In monitoring practices related to interpreting and/or using any result of an assessment, each participating school shall use, but not be limited to, the following standards that define the types of practices that are unethical and/or inappropriate:
- (1) Providing interpretations of and/or using any result of an assessment in a manner and/or for a purpose that was not intended;

- (2) Making false, misleading, or inappropriate statements and/or unsubstantiated claims that may lead to false and/or misleading conclusions about any result of an assessment; (3) Any practice that permits appropriate staff without the necessary knowledge and skills to interpret and/or use any result of an assessment;
  - (4) Any practice that violates, or places at risk, the confidentiality of personally identifiable information pursuant to section 3319.321 of the Revised Code;
  - (5) Any practice that provides an interpretation or suggests a use of any result of an assessment without due consideration of the purpose(s) for the assessment, the limitations of the assessment, an examinee's characteristics, any irregularities in administering and/or scoring the assessment, and/or other factors that may affect any result; and
  - (6) Any practice that supports or leads any person to interpret and/or use any result of an assessment in unethical and/or inappropriate ways.
- (F) Each participating school shall cooperate with the state board of education in conducting an investigation of any alleged unethical and/or inappropriate assessment practice as defined in this rule.
